185 INDICTMENTS IN ARCOLA BANK CASE

Returns Against Illinois Institution Officers; Grand Jury Finds Bank Short \$546,000.

By the Associated Press.

TUSCOLA, Ill., July 22.—One hundred and eighty-five indictments were returned today by the DuPage County grand jury against officers of the Arcola State Bank, which failed recently. The grand jury reported the shortages in the bank's accounts at \$546,000.

Sixty-six indictments charge forgery, 56 receiving deposits in an illegal bank; 13 are for perjury, 40 for embezzlement and 10 for conspiracy.

John S. Quirk, the cashier, is named in 17 of the forgery indictments; Michael T. Quirk, his father, the president of the bank, is defendant in 45, and four are against John M. Ernst, grain elevator owner, who is alleged to have borrowed considerable sums of money from the bank, through John S. Quirk, without proper security.

The report says that waste is causing huge losses in building which, including all trades and common labor, ranks second among industries and contributes more than \$3,000,000 yearly to the wealth of the nation.

The chief sources of waste in the industry are, according to the report, inefficient equipment, inefficient management and wasteful labor regulations. Customs or conditions prevailing throughout the industry, and poorly designed equipment are given as secondary causes.

Loss From Accidents.

The annual economic loss due to accidents is estimated as high as \$120,000,000. Application of safety methods, it is stated, should save the industry 12,000,000 days work a year. Loss through duplication of estimates and designs, and duplication in bidding, is said to run into millions.

An acute national shortage of housing exists, the report states, because of prohibitive construction costs to householder and banker.

Many union rulers are condemned as "absolutely wrong," and both employers and employees are blamed for restriction of output.

"Union regulations in the past have produced enormous losses," says the report, "through direct or indirect restriction of output. Workers and contractors, however, are beginning to appreciate that reduced output reacts in tremendous fashion upon themselves."

Recommendations in Report.

"Greater co-operation between workers and employers is an absolute essential. Such co-operation must be attained before we can approach the elimination of labor difficulties. Such co-operation, however, is impossible without the removal of causes of friction and the working out of plans to this end."

The report deplores the irregularity of employment for building trades workers, declaring that they are busy only on an average of about 180 days in a year. It recommends the following means of reducing seasonal unemployment:

"Allowance of a small margin of profit for both labor and capital during winter months; development of methods of conducting the work in cold weather; arrangement of work to provide indoor operations in cold and stormy weather; organization of a clearing house for co-ordination of activities; increasing the usefulness of employment bureaus, and educating the public."

"Idleness, however, is not due entirely to seasonal demands; strikes and lockouts are appreciable causes," the report adds.

Strike Assailed as Wasteful.

"The strike is declared to be only one of the great economic wastes in the building industry."

"The waste to the men engaged, the contractor, and the public is hard to estimate," it was asserted.

"If the greatest cause, the demand for an increase in wages, could be eliminated, strikes as a factor or waste would shrink into insignificance. The remedy that suggests itself is co-operation. Management and labor must forget the sore spots of past conflicts and through whole-hearted co-operation, fix by proper studies a minimum wage to corre-

MAJOR TELLS OF DEALS, IN DENYING BERGDOLL STORY

Declares Before House Committee That He Never Accepted \$5000 to Help Draft Dodger Escape.

"SHE DIDN'T GIVE ME CUSSSED COPPER"

Tells of Investment in Explaining Source of His Money, in Examination by Congressman.

By the Associated Press. WASHINGTON, July 22.—Emphatic denial of the charge that he accepted \$5000 to help Grover C. Bergdoll, draft evader, to escape, was made yesterday by Maj. Campbell of the "army," before a House investigating committee. The charge was made before the committee this week by Mrs. Emma C. Bergdoll of Philadelphia, mother of the fugitive.

Mrs. Bergdoll's statement is false in every particular," Maj. Campbell said. "There is not word of truth in it."

Asked about a deposit of \$4500 with New York bankers, Maj. Campbell said: "At that time, Mrs. Bergdoll stopped by and gave him the money, Maj. Campbell said he did not question the evidence relating to this transaction. "I can tell the committee right now where I got the money," the Major said, "but I may want time to produce evidence corroborating what I have to say."

Account With Wife.

The money deposited with Wassermann Brothers, the Major said, was given to him by his wife, Mrs. Campbell, his wife.

"I drew a check on Wassermann for \$1500 to pay for an automobile," he said. "I had \$1500 to make it."

Attacking the Military Intelligence check-up on his account with the Seaboard National Bank, New York, Maj. Campbell declared if the examination had gone back a month or so further, it would have shown that in December, 1917, he deposited more than \$5000.

Asked about a deposit of \$5000 then why couldn't I have deposited \$4500 in 1920?" he asked.

Pressed to give the source of the \$4500, Campbell said he was not prepared to do so until he could get his papers and records now on the way, with his household effects from Governor's Island to Little Rock, Ark.

"It is my intention to trace the source of this fund," he added.

Source of Money.

Pressed to give the source of the money, Campbell said he had been paid a cash sum from the sale of real estate. "There was absolutely no connection between the money Mrs. Bergdoll said she paid me and the deposit I made with Wassermann Brothers," the Major said.

"The old woman lied when she said she gave me \$50 to hand to Grover. She did not give me a cussed copper."

President Harding will present the championship cup to the winner of the tournament when the final results are known.

In the event of a tie a play-off will be held tomorrow.

Scores at End of Third Round.

Third round scores, total for 54 holes, (*) denoting amateurs:

A. F. Natale, Lansdowne, Pa., 73-24.

W. J. Damen, Woodley, Montgomery, Ala., 79-244.

COURT TO DECIDE IF GOV. SMALL IS LIABLE TO ARREST

Attorneys for Illinois Executive Have Told Him He Is Immune and Have Advised Resistance.

HE GIVES REASONS FOR RESISTING ARREST

Statement Explains Lawyers Have Pointed Out That Exemption Is in Interest of Public Welfare.

By the Associated Press

SPRINGFIELD, Ill., July 22.—Whether or not Gov. Len Small, indicted by a Sangamon County grand jury for the embezzlement of interest on State funds, while State Treasurer, is immune from arrest is to be decided by Judge E. S. Smith of the Sangamon County Circuit Court.

Lieutenant-Governor Sterling's bond was for \$50,000, secured by the National Security Co. of Chicago.

When Judge Smith took the bench this morning former Gov. Joseph W. Fifer, James M. Graham, former Democratic Congressman from the Springfield district, and George B. Gillespie of Springfield, or counsel for the Governor, were waiting, and State's Attorney Mortimer also was there.

Addressing newspaper men who gathered in his courtroom when he reconvened court shortly after 2 p.m. today, Judge Smith said: "I may as well tell you that there will be nothing done in the case in which you all appear to be interested until Tuesday morning."

Statement by Small. As the arguments began, Gov. Small from his office, issued the following statement:

"We Attest: General Brundage succeeded in securing from the Sangamon County grand jury his indictment against me, my first impulse, knowing that I am absolutely innocent, was to submit myself to the court and stand trial in the ordinary course of the administration of the criminal law. My counsel, however, advised me that such a course would amount to a practical surrender of the integrity of the State in violation of my oath of office."

"They declare, on the other hand, that it is my duty, under the Constitution, to decline to waive the independence of the Executive Department; that it would be a violation of my oath of office so to do, and that such a course would necessarily result in embarrassment of the State Government."

"The Interest of Public." They point out, and with unanswerable authority, that the exemption of a Governor from arrest and trial upon criminal charges during his term of office, is not a personal privilege but an exemption in the interest of the public welfare, and to perpetuate the independence of the executive department.

"I accept these conclusions as irrevocable, by their very force, pointing out to me the course I should pursue, and I shall therefore not attempt to waive the constitutional exemption."

In their opinion on the immunity of the Governor, his attorneys presented the same facts, in expanded form, declaring the Governor had many important duties to perform, which required his constant attention.

Lawyers' Statement.

"In the proper performance of these duties," the attorneys said, "it should be and it is the policy underlying the Constitution that he shall not be hampered, or threatened, or coerced, into doing or failing to do what is for the best interests of the people who elected him."

"If the Governor may be prosecuted under indictments in any one county," the attorneys continued, "he may also be in other counties—possibly in 102 counties."

"It is within the knowledge of most people that indictments can be and sometimes have been obtained for felonies and even unlawful purposes."

"It is quite conceivable that an indictment might be obtained in some of the counties of Illinois through an unlawful conspiracy."

"The framers of the Constitution understood all this thoroughly, and met it by providing a way, the only way they did provide, for dealing with an unfaithful executive, namely, impeachment."

If the Court decides the Governor is immune from arrest as the State's chief executive, the caplase for his assets, held by the Sheriff of Sangamon County, would probably be withheld until the expiration of Gov. Small's term of office, three and one-half years hence.

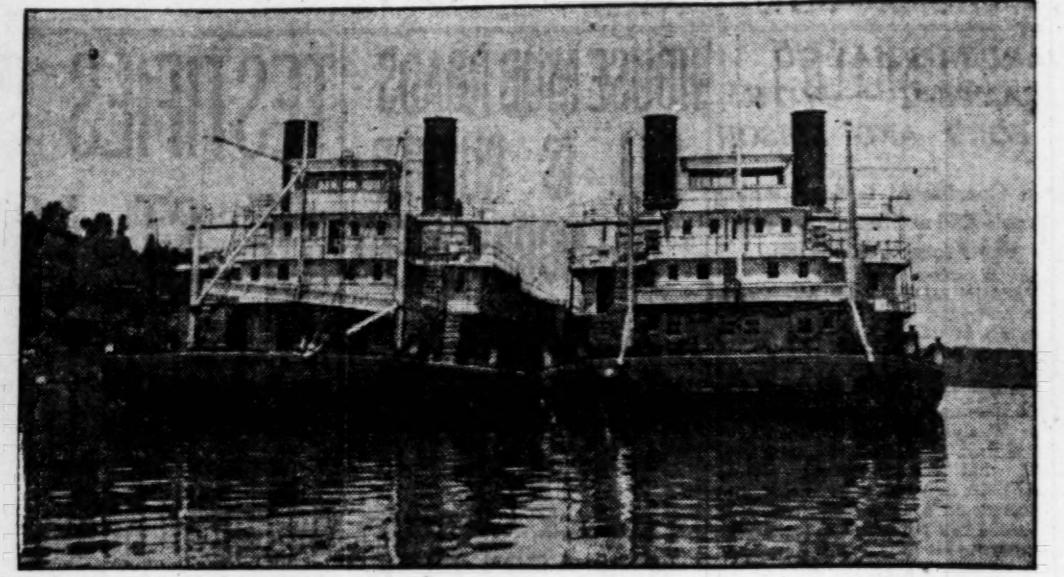

If the decision is adverse to the Governor, it is expected the Sheriff of Sangamon County will be instructed by the State's Attorney to serve the warrants. In the latter event the situation is fraught with possibilities ranging from peaceful surrender by the Governor to the calling out of State troops to forcibly resist serving of the warrants.

Inquiry to See If Small Paid Income Tax on \$2,000,000.

By the Associated Press

CHICAGO, July 22.—Federal investigation as to whether income tax was paid on \$2,000,000, mentioned in indictments against Gov. Small and others, has begun, it was announced today.

TESTIFIES CARL ZORK OF ST. LOUIS HE STARTED GAME FIXING

Continued From Page One.

Sport Sullivan as an alibi in case there ever was any trouble so he could show he bet on the Sox," said Redmon.

Sullivan is under indictment but not on trial.

The first story of the actual placing of bets during the 1919 world's series by men charged with the alleged conspiracy for White Sox players to throw the games was told today by John O. Sseys, secretary of the Chicago National League club, who said he held stakes in some of the bets.

Sseys identified Louis Levi and his brother, Ben Levi, Des Moines, Ia., as bettors. Sseys said he and Clark Griffith, manager of the Washington baseball team, held stakes for bets made by Abe Attell and Louis Levi.

Sseys testified he met Attell in the Sinton Hotel in Cincinnati the night before the first game. Attell and Louis Levi were taking turns making bets that Cincinnati would win the first game, giving odds of six to five, and that Chicago would win the series.

HYDE AND BARRETT HEAR WILLMANN IN DEFENSE OF ACTS

Attorney-General Says Accused Officer "Met the Charges Squarely" — To Be Questioned Further.

CHARGES "FRAMED," ACCUSED ASSERTS

Declares It Is Work of Gamblers in Retaliation for His Raids—Tells of Eating Poisoned Food.

John Willmann of St. Louis County, in a prolonged interview with Gov. Hyde and Attorney-General Barrett, in the Attorney-General's office yesterday, denied that he was making a defense of his official character against charges of neglect of duty, in failing to raid whisky stills in the county after their location was known to him.

Newspaper reporters were excluded from the conference, on demand of A. E. L. Gardner, the Sheriff's attorney, though Willmann said he was willing they should be admitted, and the other participants in the conference were also willing. Chief Deputy Sheriff Al Lill was with Willmann, and Prosecuting Attorney Mueller was at the conference, as was Marshall Campbell, Assistant Attorney-General in charge of post-awards at the special session.

PERSON CITY, July 22.—The Attorney-General, in an audience with his assistant, said yesterday that the members of the Legislature were not to receive \$20 each for post-awards at the special session.

Willmann, a member of the House and is entitled to a post-award of \$30 at the regular session. At the start of the special session the Senate passed a resolution which stated the same amount should be given to the special session. The Auditor, however, held the view that the members of the Legislature, for an opinion. Many members already spent the amount in the expectation that they would receive the amount.

Exhausted After Conference.

Willmann said Willmann spoke with much feeling. After the morning session the Sheriff, who has been ill for some time, appeared exhausted and sat on the steps of the Supreme Court building. There Judge Conroy, Elder of the Supreme Court found him and assured him of his confidence in him. "It would take an avalanche to shake my faith in him," Judge Elder said.

Willmann said to reporters, after the conference, he believed that his present trouble was the result of his present efforts to combatized gambling in the county. "It is impossible to be straight and keep in office in the county. If I were not keeping straight I would not have this trouble," he said. "In one of the gambling raids, where \$2,000 was confiscated, I was told that if I would give the money back I could keep half of it."

Willmann said earlier in the day that his present illness was due to an unexplained poisoning, which resulted from a meal he ate at Jefferson City. He would not say in what house or establishment the meal was eaten. This happened last spring, when he was taking prisoners to the penitentiary, he said.

Warned to Eat at Home.

Later, he said he had been warned to eat only at his home. "A friend told me," Willmann said, "that he could produce an affidavit telling of a man who had received \$2,000 for protecting whisky stills in St. Louis County." He declined to give any names in this connection.

He said Prosecuting Attorney Mueller of St. Louis County, a month ago, called on him and said that a whisky ring appeared to be in operation and that there were reports connecting Willmann with this ring. Willmann said he denied having any such connection, and urged the Prosecuting Attorney to "hop to it" if he had any evidence.

The Sheriff said that, since he became ill, he has been accustomed to lie on a cot in his front yard, but that he received an anonymous note warning him not to lie there. A few days ago, he said, his brother, William Willmann, was in the front yard when an automobile drove past, then returned, and it was seen that those in the car were inspecting the car. When the occupants of the car saw that the man in the yard was not the Sheriff, they drove away.

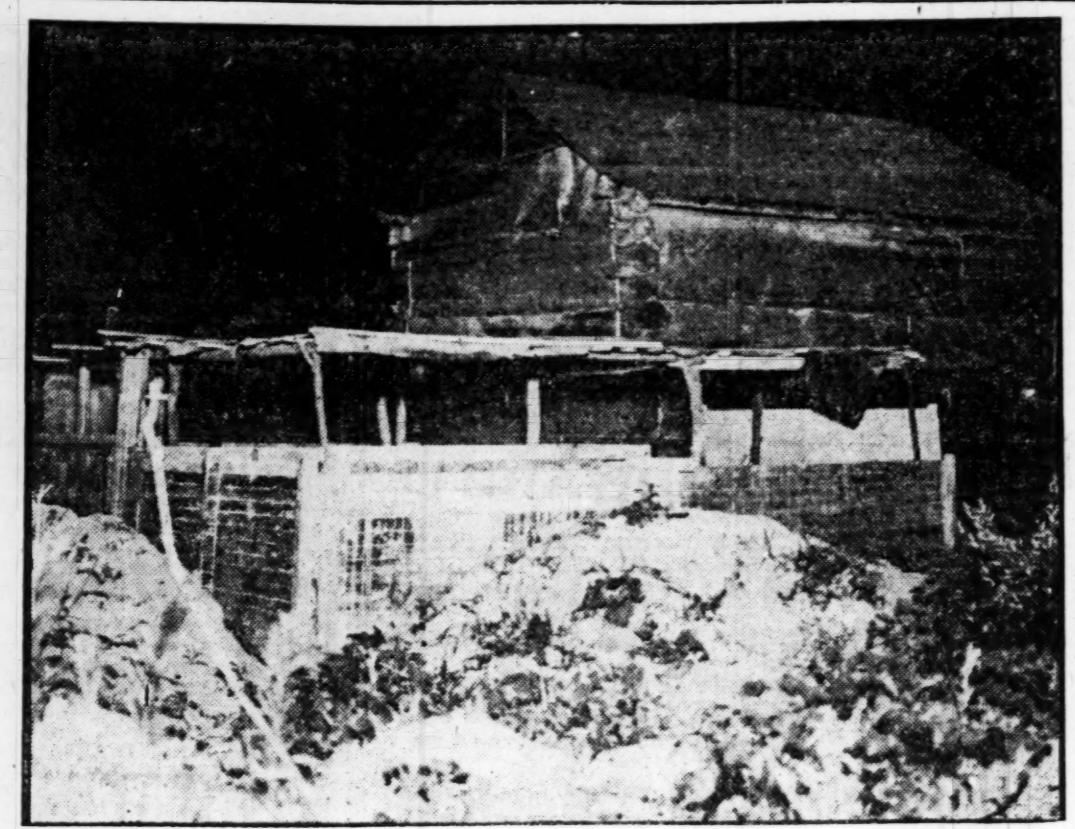

More Letters From Citizens.

Attorney-General Barrett today received several letters from residents of St. Louis critical of recommended Willmann. Mrs. James T. Hardy of Normandy, county chairman of the League of Women Voters, wrote suggesting an investigation into the "recent character, political and moral record" of the persons who have appeared as Willmann's accusers. Mrs. Hardy also wrote another letter, complaining of alleged fraud in the Normandy district school election, and saying that Deputy Sheriff Stuckman was on duty at the election place. Stuckman resigned a few days ago, expressing disgust with Sheriff Willmann's inaction in moonshining cases. He is now working under Enforcement Officer Hoover.

Major Warren C. Flynn of University City, and Chester A. Kennedy and W. W. Butts, residents of University City, wrote praising Willmann, and saying his recent inactivity had been due apparently to illness.

Sheriff Willmann, who was marshal of University City before his election as Sheriff, was known as an

Shack on Missouri River Island Where Still Is Believed to Have Exploded, Causing the Death of Two Men

ACTION TO PURIFY KLAN FROM WITHIN

Imperial Wizard Says Forces Shielding Crime Under Its Cloak Will Be Fought.

By the Associated Press.

FORT WORTH, Tex., July 22.—Action to purify the Ku Klux Klan of Texas and Oklahoma from within and to combat other forces that attempt to shield their crimes under the cloak of the Klan was announced today by Col. William Joseph Simmons of Atlanta, Ga., imperial wizard of the Knights of the Ku Klux Klan, in a message to the Fort Worth Star-Telegram.

He called to the attention of Sheriff Willmann July 9 by Justice of the Peace Wermer.

Wolfsberger telephoned his wife, a Jay Kubs, a real estate dealer, and told of his arrest and sent for his friend, Andy Hollweg, a saloon keeper, at Tenth and Pine streets, who signed the bond. In the arrangement before United States Commissioner Atkins, Wolfsberger pleaded "not guilty," and his bond was fixed at \$1000. He will be given a preliminary hearing Aug. 12, it was stated.

"They're trying to make a goat out of me," Wolfsberger declared to a Post-Dispatch reporter when he was arrested. He declined to go into detail.

Two Others in Custody.

Wolfsberger was named on a joint warrant with four other men, two of whom, according to Chief Prohibition Enforcement Agent Hoover, are in custody. These are Jim Grasso and Jim Salvo, who were arrested by Hoover during the raid. They spent Sunday night incommunicado at the Page Boulevard Police Station and on Monday, according to Hoover, were removed to another station.

Commissioner Atkins declared that Wolfsberger is the only named in the warrant who is in custody and said that if Grasso and Salvo were in custody, they would have been brought before him for arraignment.

GRAND JURY MAKES REPORT

Arraignment Taken Pending Disbursements on Primary Fraud Cases.

The June grand jury made a partial report to Judge Landwehr today, returning 41 indictments, previously announced, and took a temporary adjournment, subject to the call of the Circuit Attorney. If the Supreme Court refuses the writ of prohibition asked for by Thomas P. Murphy, an election official of the Twenty-seventh ward, against the production of precinct records of the primary of August, 1920, the jury will be recalled and will resume its work.

Col. Simmons cited the revocation of the charters of the organizations at Pensacola, Fla., and Mobile, Ala., for alleged acts and said he would revoke the charters and furnish the names of members of any other local organizations that did not comply with the law. New members are being recruited at the rate of about \$1000 a week, he said.

HOUSE EXPECTED TO APPROVE REPORT SEATING HARRY B. HAWES

Elections Committee Votes to Throw Out Contest Filed by Bernard P. Bogy.

Special to the Post-Dispatch.

WASHINGTON, July 22.—Representative Harry B. Hawes, Democrat, of St. Louis, is entitled to retain his seat as a member of the House from the Eleventh Missouri District, a House Elections Committee ruled yesterday, throwing out a contest filed by Bernard P. Bogy, Hawes' Republican opponent at the polls last November.

Bogy charged that persons illegally registered were permitted to vote, that some voters were intimidated at the polls and that election officials failed to make an accurate recount.

The committee holds that the election "was on the whole quiet, orderly and fairly conducted" and, in conclusion, referring to the count, said:

"Your committee believes that the recount was fairly conducted and that the official result of the recount showing that Harry B. Hawes, the contestee, was elected by a plurality of 2607 over his opponent, Bernard P. Bogy, the contestant, in the absence of competent evidence to dispute it, is a fair and accurate expression of the wishes of the voters of the Eleventh District."

The vote in the House is expected to approve the report.

25,000 Harvest Hands Needed.

FARGO, N. D., July 22.—About 25,000 men are needed in North Dakota to harvest the wheat and other crops. Mrs. M. B. Bowe, head of the Federal Employment Service, announced last night, Farmers are offering \$3 per day.

ISLAND STILL AT SCENE OF BLAST THAT KILLED TWO

Evidence of Explosion and Making of Moonshine Whisky Found on Mayer's Bar in Missouri River.

FLASH SEEN THERE WEDNESDAY NIGHT

Inquest Over Two of Victims in St. Louis Fails to Establish Just How They Were Fatally Burned.

Suspicion that the explosion which caused the death of two men and seriously burned three others, on Mayer's bar, an island in the Missouri River opposite Hines Station, Wednesday night, was in connection with the operation of a still, was confirmed yesterday evening by Deputy Sheriff John Morton of St. Charles and a Post-Dispatch reporter, who went from St. Charles to the island in motor boats.

A still and appurtenances were found in a log shed and a pine bar. The indications were that the still had been formerly operated vigorously and after being closed down for a time was again being put into operation.

Investigation on the island did not entirely explain the explosion, a charred area, surrounded by a litter of fragments of partially burned clothing, indicated where it had occurred. The conjecture is that a can of gasoline, around which the men were gathered, exploded.

Island Leased to Farmer.

The island, about two miles long, lies nearest the St. Louis County side of the river, but is claimed to be under St. Charles County jurisdiction.

It is owned by Mrs. Barbara Geret of St. Charles, who says

she and Simmons of Atlanta, Ga., imperial wizard of the Knights of the Ku Klux Klan, in a message to the Post-World-News, said the Klan's department of investigation have been detailed to investigate the activities of the organization and its workers in Texas and Oklahoma, according to the message. Col. Simmons expressed the belief that recent alleged lawlessness in the two states are the acts of enemies of the Ku Klux Klan, shielding themselves under the name of the organization. However, he said, the activities of every individual who has taken the Klan's oath will be carefully watched and any violations of the constitution and by-laws will be punished.

The imperial wizard asked that

Federal and civil officials report to him any evidence of alleged lawlessness by members of the Ku Klux Klan.

The Ku Klux Klan does not stand still. He would not say the name of any kind, but on the contrary, is designed to strengthen and uphold the integrity of the law and to make the machinery of the law so strong the evildoer cannot live in peace and security in any community," the message said.

Col. Simmons cited the revocation of the charters of the organizations at Pensacola, Fla., and Mobile, Ala., for alleged acts and said he would revoke the charters and furnish the names of members of any other local organizations that did not comply with the law. New members are being recruited at the rate of about \$1000 a week, he said.

Escaped Alligator Caught.
By the Associated Press.
SANTA ANA, Cal., July 22.—A hungry alligator, 10 feet long, which had not partaken of food for seven

months, caused consternation in a two-day ramble after breaking from his cage in the county park here. Two children located it when it opened its capacious jaws toward them as they were wading in a stream, and a posse with chains and ropes finally tied and dragged it back to its cage. It had refused food for seven months.

MRS. ANNA O. BRALEY TO WED DR. G. W. TWOMEY IN SHANGHAI

St. Louis Woman Will be Married to Red Cross Worker on Sept. 31.

Mrs. Anna O. Braley of the Shew-wood Court apartments will depart Aug. 13 for San Francisco to sail Aug. 17 for Shanghai, China, where her marriage to Dr. George Watson Twomey will take place. The ceremony will be performed on the day of Mrs. Braley's arrival, Sept. 31, at the American Legation in Shanghai. Mrs. Braley is the widow of Capt. Eddie Kerr Braley, who served in the Spanish-American war.

Dr. Twomey is the son of Mr. and Mrs. W. A. Twomey of Louisville, Ky. He served as a captain in the medical corps during the world war and was with the Army of Occupation in Germany when the armistice was signed. Later he saw service in Siberia and the Philippines and is now connected with the American Red Cross, doing the Foreign Relief Work in China but will resign soon to practice medicine in Nanking. Mrs. Braley returned to St. Louis, June 11, from a two years' trip abroad. She met her finance when she was in Manila. The couple will reside in Nanking.

**MISS BERTHA BATES IS
TO MARRY A SICILIAN**

Former High School Teacher's Engagement to Don dei Pietragulli Announced.

MISS BERTHA BATES, daughter of Mrs. C. W. Bates, 444 Lake avenue, and former teacher of Greek in Yatman High school, has given her cards to St. Louis Misses in her engagement to Don Carlo Zuccaro del Pietragulli of Sicily. The marriage will take place in the summer in Rome.

Miss Bates sailed for Naples last summer and in the early winter went to Taormina, Sicily. Her fiance, with whom she became acquainted on her European trip, is the son of Enzo Zuccaro del Pietragulli, whose family has lived on their estate in Sicily more than 400 years.

Miss Bates was one of the first St. Louis women accepted by the American Red Cross for hospital and nursing service in France during the war, sailing for the war zone in August, 1918. In this city she served as a hostess in the Women's Volunteer Motor Corps and was chairman of the North Side branch of the American Fund for French Wounded. She also took part in amateur theatricals for war benefits and before going to France took a course in rifle practice.

Since the death of her former fiance, William R. Donaldson Jr., a lawyer, who was fatally burned in a gasoline explosion at his country home near Clayton, Oct. 11, 1914, Miss Bates had been actively engaged in war work. On his deathbed Donaldson added a codicil to his will leaving her part of his estate, her interest being appraised at \$169,500.

Miss Bates is a sister of Miss Elizabeth and Miss Carol Bates, who, with their mother, are spending the summer at Douglas, Mich. Don Carlo Zuccaro del Pietragulli and his bride expect to visit St. Louis some time next winter.

KAJANNA PORTRAIT.

Miss Bertha Bates

aunt, Mrs. P. B. Jackson of 21 Thornby place and the couple will make their home in Little Rock, Ark.

Mrs. William Sample of Webster Groves will entertain with a bridge luncheon at her home Saturday morning in honor of her niece, Miss Jane Huston of Owensboro, Ky.

Mrs. T. J. McElroy of 4948 Lotus avenue, accompanied by her daughter, Miss Vera McElroy, departed last week for Wisconsin to remain through the summer. Miss Irene McElroy will join her mother and sister later in the season.

Mr. and Mrs. C. B. Melven of 925 Beach avenue, and their daughter, Miss Louis Melven, left last week for Niagara Falls, Buffalo and Rochester, N. Y. They will visit also Toronto and Miss Melven will attend a house party at Silver Lake, N. J.

Miss Aletha Jones of Little Rock, Ark., is visiting Miss Margaret Watson of 3922 Shaw avenue. She will depart in a few days for Chicago to pass the remainder of the summer.

Miss Helen Rhoades of 6363 Waterman avenue will be hostess at a bridge luncheon tomorrow at her home.

Mr. and Mrs. B. Beehler of 3219 Eads avenue have, as their guest their daughter, Mrs. Norman Rybicki of New York.

Mr. and Mrs. Stan Mitchell of 1915 America avenue left this week for a cruise on the Great Lakes. They will visit also Niagara Falls and other points of interest.

Mr. Robert Johnson of 4309 Delmar boulevard and Miss Sarah Johnson departed Tuesday for Chicago.

Mrs. Henry Menzenwerth Sr. and her daughter, Miss Amelia Menzenwerth, of the St. Regis Apartment, will leave Aug. 3 for Macatawa, Mich., to be absent until September.

Mrs. Marshall Hall of 6362 Waterman avenue left last week for Pryor Lake, Minn., to pass the remainder of the season.

Members of the Ferguson League of Women Voters will give a pageant, entitled "Little Stories of Patriotic Valley," on the evenings of August 26 and 27 for the benefit of the Community Hall. The play, written and staged by Mrs. Quincy L. Slocumb, is in four parts: Cave Man, Indian and Spanish, French and the Civil War reconstruction period. Miss Katherine Atwood will have charge of the dancing and Mrs. O. E. Mason of the vocal music.

Mr. and Mrs. John J. Kelly of 5216 Waterman avenue will depart Sunday for Rockport, Mass., to be absent about a month.

Mr. and Mrs. Samuel Harold Baer of 21 Dartford avenue will depart in about 10 days for the Adirondacks to spend the month of August. Mrs. Baer's mother, Mrs. E. M. Brown, will leave Aug. 1 for Charlevoix, Mich.

Mr. and Mrs. James T. Drummond of 5341 Pershing avenue, and their daughter, Miss Mary E. Drummond, will depart the first of August for Fish Creek, Wis. Miss Drummond, Miss Marie Baker and Miss Annie Laurie Bloodworth will return home Sunday evening from Allenton, Mo., where they have been

Social Items

Miss Katherine Servis Vest, daughter of Alexander Vest of the Hamilton Hotel, whose engagement was announced a few days ago, has been chosen Sept. 10 as the date of her marriage to Leslie Williams of Memphis, Tenn. The wedding will take place at the home of the bride's parents.

Coburg Nut Stollen

Coburg Stollen is a general favorite, and nothing ever quite takes the place of this rich, tender coffee cake that has almonds in the cake and French fruits and almonds in the topping. A happy solution of the breakfast problem. Saturday special. 42c

The Washington Avenue Shop

Convenience, courtesy and personal attention link the Washington Avenue Shop and the Locust Street Store in the minds of St. Louis shoppers, where they know they are assured quality sweets at moderate prices.

ACE DISFIGURED
WITH PIMPLES
Blackheads Caused Itching,
Lasted a Year. Cuticura Heals.

My trouble began with pimples, blackheads which later developed into a rash and caused an itching, especially in hot weather. My face was badly affected and was red, blotchy and disfigured.

This trouble lasted about a year and tried every kind of medicine, but nothing helped. I began using Cuticura Soap and Ointment and after a box of Cuticura Ointment three weeks I was completely clear. (Signed) Edmund Theis, J. Wilkins, Minn.

Cuticura Soap and Ointment are ideal for every-day use.

TILL 100, DOCTOR THINKSPhysician and Oil Magnate, Each
82, Expect to Play Golf
When 100.

Special to the Post-Dispatch.

CLEVELAND, July 22.—The prediction that John D. Rockefeller, who recently celebrated his eighty-second birthday, will live to be 100 years old, was made yesterday by Dr. H. F. Biggar, his physician and lifelong friend. The doctor, also 82, looks forward to a golf match with the financier when both have rounded out the century mark. To Dr. Biggar is given the credit for prolonging the life of the world's richest man.

"Mr. Rockefeller is in better health now than many a man of 60," Dr. Biggar said. "Any one who follows his sensible way of living can live to be a centenarian."

"Mr. Rockefeller once had indigestion, but not now," said the physician. "He can eat anything, but he observes one of the prime laws of health, and eats moderately. For breakfast, he has eggs, cereal or milk. Often I have heard him remark, on rising from dinner, 'I could have eaten more.' His good sense tells him that moderation in diet is a pre-requisite of endurance."

"Mr. Rockefeller lives regularly and simply, and, therefore, wisely. His day runs by schedule. He has a certain time for golf, a certain time for writing, and so forth. At dinner he always surrounds himself by a few congenial friends. After dinner he likes to play his guests a mathematical type of game called 'Numerica,' believing it aids digestion. 'He retires early and rises early. He likes music at rising and on retiring. Usually someone plays old tunes or plays melodies on a violin. Golf has played a great part in conserving his health.'

"For men of more than 50, golf is perhaps the best sport, though horseback riding is also excellent. For men under 50, tennis and cricket are both good games."

Dr. Biggar is active and looks more like a man of 60. He keeps the same office hours as he did 20 years ago.

Asked to comment on the short, skirts and other feminine fashions, the physician said:

"I think the ladies' dress nowadays is constitutionally sound. I only wish they wouldn't wear corsets. Let them observe deep breathing and discard corsets and they'll be perfect."

FOUR CHARGES AGAINST MAN
WHO CAUSED KIDNAPING STORYSharon (Pa.) Business Man, Accused of Attempt to Defraud, in Jail
On Default of Bail.

By the Associated Press.

SHARON, Pa., July 22.—Thomas D. Randolph, a business man of Sharon, who was believed to have been kidnapped last Monday night and held for \$50,000 ransom, but who returned to his home Wednesday night and was arrested, late yesterday pleaded not guilty to four charges and waived the hearings. When bail aggregating \$7000 was not produced he was returned to a cell.

Chief of Police Lansdowne, preferred charges of attempt to obtain money by false pretenses, attempted blackmail and extortion and a statutory charge against Randolph, while Postal Inspector George V. O'Gallagher preferred a charge of using the mails in a scheme to defraud.

An unidentified woman alleged to have accompanied Randolph to Stoneboro, where he is said to have

The Executor

PART TWO.

MELLON WANTS REFUNDING POWER TO PREVENT DELAY

Sinking of Ostfriesland in 21 Minutes Held to Prove Airships' Efficacy

Former German Battleship, Partially Damaged
by Lighter Bombs, Quickly Succumbs to 2000-Pound Missiles, None of Which Hits Direct.

By the Washington Correspondent of
the Post-Dispatch.

NORFOLK, Va., July 22.—Yester-
day was a great day for the air
service. Even Major-General Men-
cher, Chief of the Army Air Service,
who spoke with habitual caution,
permitted himself to agree with the
rest of the observing party on the U.
S. S. Henderson, he had just seen
the former German battleship Ost-
friesland—"former" now in a double
sense—turn completely over in the
air, lie for a brief space in that
position, for all the world like a
whale in distress, and then, with
nose pointed in air, start down
through 50 fathoms of water to the
bottom of the Atlantic Ocean.

The unsavory ending place of the
Ostfriesland, which lie through the
battle of Jutland or to figure as an
agonizing target in the bombing
test concluded yesterday, is about 60
miles off the Virginia Capes, in the
area where six other former German
war vessels allocated to the Ameri-
can Government after the surrender
of the German fleet have been sent
to the bottom in a series of Army-
Navy bombing and gunnery ex-
ercises.

Some went so far as to prophesy
that the 14-inch guns of the Penn-
sylvania would have to be called into
play in order to send her to the bot-
tom. It was the program to let the
gunner of the flagship have a go at
the vessel if the airmen failed and
she still floated to the surface with
depth charges. Under the
terms of the international agree-
ment by which the Ostfriesland
came to the United States, she had
to be sunk.

Heavier Missiles Used.

In the morning attack, five bombs
of the 1000-pound variety were
dropped. Three of them scored
beautiful hits. Whenever a bomb
went home, a towering smoke cloud
shot through with flame, signifying
the success of the attack two or
three seconds before the noise of the
explosion traveled across the inter-
vening miles to the Henderson.

Bombs exploding alongside
the vessel sent up a column of
water which, if the ship had still floated,
would have been 100 feet high.

"As to the Irish situation, it is hard
for one outside to understand
all the difficulties; but the whole
world will rejoice if a basis of agree-
ment is reached almost every week.
There is to be from 10 to 25 sub-
robberies each week; now there are
only one or two, he said.

Is End to the Experiment.

The sinking of the Ostfriesland, an
armored dreadnaught of 22,000 tons,
made a spectacular finish of the ex-
periments.

"The test proved conclusively,"
said Gen. Mencher, "that the air-
plane is a menace to ships. How to
combat the menace is a problem for
the navy to solve.

"The test showed that airplanes
can sink a battleship. Here was a
battlehip, balloons came above it
and dropped bombs, the ship sank.
The facts speak for themselves."

"It should be noted that the
airmen faced no barbette fire or
anti-aircraft guns. That was a fac-
tor in our favor. But in warfare no
barbette can be thrown up that will
keep away all attacking planes. I
say that proved on the western
front when the Germans shot down
three of our captive balloons. I saw
a German airman get through a bar-
rage and bring down a balloon
through hundreds of machine guns
and all the batteries in range were
firing at him. He came so close that
I could see the color of his hair and
it was red.

"In war, young men with a zest
for the air game will get through a
barrage."

No Direct Hits Made.

The end came in the afternoon.
Five Martin bombers and two Hand-
ley-Pade aircraft flew out to the
attack with the biggest bombs that
the air service has developed, to
2000 pounds. Seven were dropped,
though none scored a direct hit, the
effect of the terrific explosion, which
could be felt on the Henderson over
a mile away, soon became manifest.
After the fifth bomb, the Ostfries-
land began perceptibly to go down
by the stern. Soon her after-deck
was awash. She began to list heavily
to port. Slowly but steadily she
keeled over till she turned broad
side up. Then she sank, the
water filling her hull.

"A gun can shoot from 10 to 20
miles. With airplanes we can in-
crease the zone of protection to 150
miles, and, if we are willing to sac-
ifice planes, 250 miles."

No "Duds" Among Bombs.

"Gen. Mencher complimented the
accuracy of the bombing and the
quality of the missiles used. There
were no "duds" among the 1000-
pound and 2000-pound bombs used
in the final phases of the attack or
the Ostfriesland.

He drew the lesson from the
test, as did others on board the
Henderson, that a bomb striking
alongside a ship and exploding in
the water below the line of the ship's
heavy armor is likely to do more
damage than a bomb landing on the
deck."

"It was wonderful shooting," said
Rear Admiral Gilman, retired, of the
American Navy, who has been a
close observer of all the tests. "The
results show that our Navy must
control the air. It must be effective
over the water, as well as on
and below the water."

Secretary of the Navy Denby.

"Secretary of the Navy Denby,
who was an interested spectator of
the bombing, said it was too close
after the event to make any com-
ment on the lessons taught by it."

"The attack on the Ostfriesland
began Wednesday, but no attempt
was made to sink her then. The
Treasury wants plenty of authority
to make agreements because it doesn't
have to anyone hereafter cast
doubt upon the validity of the
securities accepted on the ground that
the Treasury had no power to accept them."

Authority Under Law.

"The trouble is the Treasury has
no authority under one law and
another species of authority under
another. The loans were made at
different stages of the war and the
most practicable way to deal with
them is as a unit. Thus all the
securities accepted on the ground that
the Treasury had no power to accept
them are to be treated as a group and
should with France as a group. The
Treasury wants plenty of authority to
make agreements because it doesn't
have to anyone hereafter cast
doubt upon the validity of the
securities accepted on the ground that
the Treasury had no power to accept them."

**Further Increase in the
Tonnage of the Line Application**

"The question is not so much re-
duction of taxes as selection of
things to be taxed. The only tax
whose repeal has been viciously
demanded is the excess profits tax,
and it is the last which should be
repealed. It only applies to profits
which should not be taken from the
purchaser. Any business man can
see to it so far as he is concerned,
without the aid of counsel of any
one else, simply by ceasing to sell.
Then he will not have to divide ex-
cess profits with the Government."

View of Tax Problem.

As to taxation questions before
Congress, he said:

"The question is not so much re-
duction of taxes as selection of
things to be taxed. The only tax
whose repeal has been viciously
demanded is the excess profits tax,
and it is the last which should be
repealed. It only applies to profits
which should not be taken from the
purchaser. Any business man can
see to it so far as he is concerned,
without the aid of counsel of any
one else, simply by ceasing to sell.
Then he will not have to divide ex-
cess profits with the Government."

"The question is not so much re-
duction of taxes as selection of
things to be taxed. The only tax
whose repeal has been viciously
demanded is the excess profits tax,
and it is the last which should be
repealed. It only applies to profits
which should not be taken from the
purchaser. Any business man can
see to it so far as he is concerned,
without the aid of counsel of any
one else, simply by ceasing to sell.
Then he will not have to divide ex-
cess profits with the Government."

BROOKLYN July 22—One of the biggest surprises of the season was won today when Johnny Lavan was out of the game. It was rumored he had been suspended for staying out after hours, but Rickey denied it. Johnny does not drink, but failed to observe Manager Rickey's rule that the Cardinals should be in the hotel at 11:30 at night.

Hornsby went to short today, and George Tropcer, the best pitcher, started, played second. Heathcock, a very fine golfer, and Freddy Adore, the local club, Freddy is playing banjo golf. May the Jinx that is bad for the home player in open championships for year will be put to rest.

No home pro seems to be able to win a big event on his home course. Freddy knows every kink of the Columbia Links and may profit by his knowledge.

Bobby Jones caused a big sensation in the afternoon when he got over the first nine holes in 33 strokes. This is surely a record for this nine. Bobby had an excellent chance to beat Barnes' morning card, as he started back in brilliant fashion, but went to lose confidence on the greens. Bobby sliced his second shot at the fourteenth, then tell me, and this was the beginning of his trouble. He would have won but for the 16th hole, which was needed at the sixteenth, and seventeenth, otherwise he would have made a 69 and tied Barnes. Bobby is still to be considered, as he is only five strokes behind the leader. I watched him play a few shots and those I saw showed fearless, care-free style which always indicates confidence.

Abe Mitchell Withdraws.

CARDINALS—Stock tripped to center. It was his third straight extra base hit as first man up in the three Brooklyn games. Mann walked. Stock singled to center, scoring Mann and putting Mann on third. Hornsby was hit by a pitched ball, hitting the bases. Fournier singled to center, scoring Mann and Stock and putting Hornsby on third. Fournier was safe on second. Fertia to Fournier. NO RUNS.

SECOND INNING.

CARDINALS—Dillhoefer fouled to center. It was his third straight extra base hit as first man up in the three Brooklyn games. Mann walked. Stock singled to center, scoring Mann and putting Mann on third. Hornsby was hit by a pitched ball, hitting the bases. Fournier singled to center, scoring Mann and Stock and putting Hornsby on third. Fournier was safe on second. Fertia to Fournier. NO RUNS.

THIRD INNING.

CARDINALS—Stock fouled to center. Hornsby was out, stealing. Krueger to Olson. Fournier safe on Olson's fumble. Fournier was out. Krueger to Kilduff. NO RUNS.

SEVENTH INNING.

CARDINALS—McHenry out. Fertia to Schmidts. Topcer to Schmidts. Fertia to Schmidts. Olson threw out Kilduff. NO RUNS.

BROOKLYN—Griffith singled to center. Wheat doubled to left center, putting Griffith on third. Neil's, Schmidts beat out, hit to Kilduff. Kilduff singled to left. Schmidts stopping at second. Krueger to Kilduff at second. Krueger to Olson. Olson singled to left. Schmidts stopping at second. Krueger to Kilduff. TWO RUNS.

EIGHTH INNING.

CARDINALS—Fertia struck out. Schmidts walked. Mann fanned to Kilduff. Stock was passed. Hornsby called out on strikes. NO RUNS.

BROOKLYN—Griffith singled to right. Neil's, Schmidts beat out, hit to Kilduff. Kilduff to Olson. Olson threw out Schmidts. Wheat to Kilduff. TWO RUNS.

NINTH INNING.

CARDINALS—Fertia struck out. Schmidts walked. Mann fanned to Kilduff. Stock was passed. Hornsby called out on strikes. NO RUNS.

BROOKLYN—Schmidts fanned. Olson fanned to Mann. Stock threw out Schmidts. NO RUNS.

TENTH INNING.

CARDINALS—McHenry out. Fertia to Schmidts. Topcer to Schmidts. Fertia to Schmidts. Olson threw out Kilduff. NO RUNS.

BROOKLYN—Griffith singled to right. Neil's, Schmidts beat out, hit to Kilduff. Kilduff to Olson. Olson threw out Schmidts. Wheat to Kilduff. TWO RUNS.

SEVENTH INNING.

CARDINALS—Fertia struck out. Schmidts walked. Mann fanned to Kilduff. Stock was passed. Hornsby called out on strikes. NO RUNS.

BROOKLYN—Schmidts fanned. Krueger made a fine running catch Kilduff's long foul. Krueger

BARNES LEADS BY 4 STROKES; FAVORED TO WIN NATIONAL GOLF TITLE, HUTCHISON WRITES

British Open Champion Says Former St. Louis "Pro" is Playing Brilliantly—Many Stars Out of the Running — Abe Mitchell, Briton, Withdraws After Bad Round.

By Jock Hutchison.

Hutchison, who is American Western golf champion and recently won the British open championship at the famous St. Andrew's links, has been engaged by the Post-Dispatch to report and analyze the playing from day to day in the American open championship tournament over the Columbia Club course.)

COLUMBIA COUNTRY CLUB, CHEVY CHASE, Md., July 22.—Surprises came thick and fast in yesterday's play in the open championship at the Columbia Country Club. I do not like to start this article by offering an alibi for my own poor showing, but I feel the golfer public is entitled to facts in the case. After a fairly satisfactory round in the morning, I managed to squeeze out a 75 after a poor outward journey. In the afternoon the first nine holes played me again and with a miserable 43 I added a 40, which puts me out of the running. Unless I can perform miracles today, this elusive will-o'-the-wisp has evaded me again.

No matter how well I play there are too many good ones ahead to give me any sort of an opening to break through.

It is a hard matter to keep one's golf going at top speed through a season's play. Nothing seemed to break right for me yesterday, but this was due to my bad playing. My shots would not come off right, no matter how I tried. When one is playing badly the breaks seem to go against him. I can't complain of hard luck, because I probably got what was coming to me.

Barnes Leads by Four Strokes. There are more pleasant things to talk about, however, and the most important of these is a sensational scoring of Long Jim Barnes, who made the trip with us to Scotland. Jim got a record round of 69 in the morning by playing some very good golf. Jim slipped occasionally, but his wonderful spurt at the turn where he put together four holes in succession was a come-back that made up for his few earlier mistakes. He was 75 in the last round and leads the field by four strokes, which seems safe enough if Jim can continue to play the national championship tournament, which will be held on the Country Club's links Sept. 17-24.

It had been thought that the event would be made out for a foursome with two local players, probably Manion and Bockenkamp, in a match over the Westwood course.

championship. Alex has been playing remarkable golf around the Shenevessink links this summer and came here to continue his good work. He had two 75's yesterday, without any breaks in the luck.

Duncans appeared to be playing his shots well enough, but the penalty for failing to break through was severe, with the stars to add for a foursome with two local players, probably Manion and Bockenkamp, in a match over the Westwood course.

It is a crimp to forge a hand. The law has plainly said: "But it is quite the proper thing for one to forge ahead."

Quite So. "Says Manipulation of Spine Manipulation to Cure Deafness—"Head line. He will get a hearing in court.

FORGING. "Squirrels Given Credit for Adding to Winnings the War—"Head line. What did they do—take the Kaisers for a nut and chase him into Holland?

QUOTE SO. "An insurance broker is suing the Detroit club for \$910 compensation on a \$91,000 rain insurance policy. Why don't they give him a rain check for the amount?

FORESMAN TO RUN FOR TIGERS IN 3-MILE RACE

By the Associated Press.

PRINCETON, N. J., July 22—Dion Foresman will run the trial three-mile race in the Palmer Stadium yesterday, to decide which of the Princeton-Cornell team that will meet the Oxford-Cambridge team at Travers Island on July 28. Foresman ran a beautiful race and when he started back in brilliant fashion, but went to lose confidence on the greens. Bob Marlin, the freshman star, and Bill Rogers, the 'varsity two-mile, were left far in the rear. Foresman won by 30 yards. The time was not announced.

WALTER HAGEN HAD A HARD ROAD TO HIS TRIAL. Walter Hagen had a hard road to his trial, round, when he took 78. He made a great fight for a good round in the afternoon and had taken only two putts on the last green, he would have made a 72. Hagen was not putting in his customary style. Walter ran a beautiful race and when he started back in brilliant fashion, but went to lose confidence on the greens. Bob Marlin, the freshman star, and Bill Rogers, the 'varsity two-mile, were left far in the rear. Foresman won by 30 yards. The time was not announced.

BUYING OF RAILS LEADS TO UPTURN ON STOCK MARKET

Some of Advance Wiped Out
Later—Industrials Irregular at Close—Call Money
Falls to 5 Per Cent—Short Selling Smaller.

By Leased Wire From the New York Bureau of the Post-Dispatch
NEW YORK, July 22.—Total sales on the New York Stock Exchange today were 311,000 shares, compared with 291,200 yesterday. Sales in 1 m. were 222,800, with the high, low and closing prices and the net changes for the day.

Exchange Market Better.

"A quiet tone appeared among the foreign exchanges, although the volume of business hardly showed improvement. Sterling started unchanged at \$2.58 1/2 and advanced to \$2.59 1/4. French francs were well taken and gained 3 1/2 points at 75 7/8. German marks picked up a point, a half at a half and smaller changes were in the majority in the rest of the European market. Exceptions were Italian lire, which were heavy and lost a point and a half, a 4 1/2% gain. And Portuguese escudos, which have declined to 11c after having risen as high as 13c recently on rumors of an impending loan. Canadian dollars continued to gain and commanded \$8.82.

"Cotton prices fluctuated over a relatively narrow range of variation, being lower for the greater part of the day as a result of scattered selling, a sharp reaction at Liverpool and the absence outside Liverpool of a regular delivery. At 12:30, the October delivery showed a loss of 11 cents. Prices also fluctuated with the great doubt in the way of net result, and it would appear that export buying and the domestic factors are in fairly good equilibrium. About the present price level, the September price declined half cent at a late price of \$2.24.

Reserve Banks Higher.
"With reserve holdings still growing, as a result of continued gold imports, and with note circulation again sharply reduced and deposits slightly smaller, the ratio of the combined Federal Reserve system advanced nearly 1 per cent last week to 181 per cent. The gain is due to the strengthening of the position of the metropolitan and more strictly financial centers, the banks at Richmond, Atlanta, Minneapolis and Dallas showing increases in their rates when compared without definite reference to borrowed reserve. The Minneapolis bank obtained a further increase of about New and a half million from the New York institution, while the Dallas bank had an advance of an other two millions from the Boston bank. If it were not for such advances the Dallas ratio would stand only 18.6 per cent, while that of Boston would be 8.8 per cent. The crop moving season obviously is not yet sufficient far advanced to interfere with the consistent gain in the reserve position of the system as a whole."

Wall Street News and Comment —SPECIAL DAILY—

By a Special Correspondent of the Post-Dispatch.

NEW YORK, July 22.—The two main features in the Wall street situation today were the continued absorption of investment funds and further strength displayed by the bond market. The movement in the bond market was extremely broad, affecting all classes of securities, and carrying prices in many instances up to new highs for the year.

The Bond Market.

The bond market was broader and more active than yesterday, with prices still going upward. There was a further all around advance in the Liberty group, which brought some of the issues up a half point compared with Wednesday's close. The announcement just before the end of business yesterday that the French loan had been closed, was reflected in a slight premium, 95 1/2, for these new 7s, and at somewhat higher prices for the French 8s.

Danish municipals, held yesterday's advance quite well, while British 8s continued to harden. Prices of 122s were a half point higher and City of Bergen 8s also gained a half point to 95 1/2. The city of Bordeaux 6s and the City of Lyons 8s, which have been hanging around 80 for some time, got up to 81 1/2.

The advance in railway issues was quite general. It was led again by the group of Hill securities—the Great Northern 7s, the Northern Pacific 8s and the Burlington collateral 5s.

The burndings were brought up to par and heavily traded in at that new high level. The Great Northern 7s were also very active at a new high advance, and at 93 1/2, where they had made up the entire loss since the time of their flotation. The evident preference shown for these new rail issues, bearing a high rate of interest, was helpful to the Canadian Northern 6s, which reached 97 for the first time. The Northern's venture 6s lost half of yesterday's gain, selling back to 91, but these were an exception. There was active trading at higher prices in St. Louis and San Francisco incomes, and in numerous convertible bonds, such as the Norfolk & Western 8s and Kelly Springfield 8s, which were both stronger on large trans-

actions.

NEW YORK STOCKS

Special to the Post-Dispatch.
NEW YORK, July 22.—Total sales on the New York Stock Exchange today were 311,000 shares, compared with 291,200 yesterday. Sales in 1 m. were 222,800, with the high, low and closing prices and the net changes for the day.

Following is a list of sales on the Stock Exchange for the day.

Some of Advance Wiped Out
Later—Industrials Irregular at Close—Call Money
Falls to 5 Per Cent—Short Selling Smaller.

By Leased Wire From the New York Bureau of the Post-Dispatch
NEW YORK, July 22.—The Evening Post in its overnight financial review today says:

"In the early trading on the Stock road tools was the feature, some advance of one and two points being recorded for the rest of the list, displaying a firm tone. Late in the afternoon it was dull, with a tendency to sell short was in evidence.

Trading became dull, but a reaction during the last hour wiped out a large part of the earlier advance, toward the close the rails still retaining fractional gains, while industrials were somewhat irregular. Call money opened at 5 1/2 and was lowered to 5 at about noon. Report of loans outside the exchange as a concession from this figure were better.

Exchange Market Better.

The crop moving season obviously is not yet sufficient far advanced to interfere with the consistent gain in the reserve position of the system as a whole."

Special to the Post-Dispatch.
NEW YORK, July 22.—Total sales on the New York Stock Exchange today were 311,000 shares, compared with 291,200 yesterday. Sales in 1 m. were 222,800, with the high, low and closing prices and the net changes for the day.

Following is a list of sales on the Stock Exchange for the day.

Some of Advance Wiped Out
Later—Industrials Irregular at Close—Call Money
Falls to 5 Per Cent—Short Selling Smaller.

By Leased Wire From the New York Bureau of the Post-Dispatch
NEW YORK, July 22.—The Evening Post in its overnight financial review today says:

"In the early trading on the Stock road tools was the feature, some advance of one and two points being recorded for the rest of the list, displaying a firm tone. Late in the afternoon it was dull, with a tendency to sell short was in evidence.

Trading became dull, but a reaction during the last hour wiped out a large part of the earlier advance, toward the close the rails still retaining fractional gains, while industrials were somewhat irregular. Call money opened at 5 1/2 and was lowered to 5 at about noon. Report of loans outside the exchange as a concession from this figure were better.

Exchange Market Better.

"A quiet tone appeared among the foreign exchanges, although the volume of business hardly showed improvement. Sterling started unchanged at \$2.58 1/2 and advanced to \$2.59 1/4. French francs were well taken and gained 3 1/2 points at 75 7/8. German marks picked up a point, a half at a half and smaller changes were in the majority in the rest of the European market. Exceptions were Italian lire, which were heavy and lost a point and a half, a 4 1/2% gain. And Portuguese escudos, which have declined to 11c after having risen as high as 13c recently on rumors of an impending loan. Canadian dollars continued to gain and commanded \$8.82.

"Cotton prices fluctuated over a relatively narrow range of variation, being lower for the greater part of the day as a result of scattered selling, a sharp reaction at Liverpool and the absence outside Liverpool of a regular delivery. At 12:30, the October delivery showed a loss of 11 cents. Prices also fluctuated with the great doubt in the way of net result, and it would appear that export buying and the domestic factors are in fairly good equilibrium. About the present price level, the September price declined half cent at a late price of \$2.24.

Reserve Banks Higher.
"With reserve holdings still growing, as a result of continued gold imports, and with note circulation again sharply reduced and deposits slightly smaller, the ratio of the combined Federal Reserve system ad-

vanced nearly 1 per cent last week to 181 per cent. The gain is due to the strengthening of the position of the metropolitan and more strictly financial centers, the banks at Richmond, Atlanta, Minneapolis and Dallas showing increases in their rates when compared without definite reference to borrowed reserve. The Minneapolis bank obtained a further increase of about New and a half million from the New York institution, while the Dallas bank had an advance of an other two millions from the Boston bank. If it were not for such advances the Dallas ratio would stand only 18.6 per cent, while that of Boston would be 8.8 per cent. The crop moving season obviously is not yet sufficient far advanced to interfere with the consistent gain in the reserve position of the system as a whole."

**MELLON WANTS
REFUNDING POWER
TO PREVENT DELAY**

Continued From Page II

except the best that are available without restrictions that limit or doubt on its power to negotiate.

Suggestion Made.

Some suggestion has been made that the Treasury agreements be ratified by the Senate, but, if that is done, the foreign governments will consider them binding and will be inclined to wait until the attitude of the Senate is known before proceeding. But, as far as has been suggested for some time, was one of the best, the Radle suggestion, that the Coal Profit Shading Act be made available to the coal companies. Among the exceptions, the coal companies in supply, and continued action in the steamship companies, the coal companies' changes were irregular in the old bill. The coal profit draft was steady and well, and a rather urgent action was taken by the Right and the Coal Profit Shading Act.

Service companies had dropped seven, starting fractionally higher. The movement was noted in the mining and service companies, the feature, a new high for the present move.

ness was larger in bond transactions.

**ES ARE MIXED IN
CATTLE MARKET TRADE**

ATIONAL STOCK YARDS, July 22, 1921.—Estimated value of cattle, \$1,000,000, sheep, 12,000; horses and mules, 1,500.

IN the steer division it was a nominal due to rock of 100,000 were sold and went steady, with a top of \$1,000.

Butcher steers and heifers, \$1,000-\$1,200, good to choice, \$3.50 medium to \$4.50, up to \$5.00, cows, \$1,250, steer and heifers, \$1,500-\$1,700, medium to \$2,000.

There was a flash early, over activity of order buyers, at 10:15 A.M. Market soon started to decline, \$11.10 was the top of the advance was \$11.15, with quite a number of buyers, \$11.10 and down.

Hogs weighing over 220 pounds were \$1.50-\$1.60, up to \$1.75. Northern twins at 17.50, lone hogs at 16.50, 4 to 450, back at 16.50.

Butcher steers and heifers, \$1.25-\$1.50, up to \$1.75. Lamb, 100 lbs., 10c; 25c; 50c; 75c; 100c; 125c; 150c; 175c; 200c; 225c; 250c; 275c; 300c; 325c; 350c; 375c; 400c; 425c; 450c; 475c; 500c; 525c; 550c; 575c; 600c; 625c; 650c; 675c; 700c; 725c; 750c; 775c; THE POST-DISPATCH PLAT-
FORM.

I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always be devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER,
April 10, 1907.

LETTERS FROM THE PEOPLE

Disturbers of the Peace.

To the Editor of the Post-Dispatch.

I AM under the impression that there is an ordinance in St. Louis against loud and unnecessary noises by automobiles. I read of complaints about lawn mowers and street sweepers, but come over on Delmar avenue between Taylor and King's highway and find that these things are no more than the buzzing of a fly by comparison. All night long machines go up and down the street at the rate of about 30 miles an hour, with the cutout wide open, and making a noise like a locomotive at full speed. About every five minutes a motor cycle passes by the line at a 60-mile clip, with a racket that would make a machine gun look like 30 cents.

They all seem to take special delight in doing their worst when in front of a row of dwellings. Heaven forgive me for the secret satisfaction I feel when one of those things hits a telephone pole. A great deal of the racket is made by a cheap class of chauffeurs racing and trying to pass each other and trying to pass street cars. If the noise was not so悉悉, we could put up with them with more patience, but they are absolutely unnecessary. A neighbor in my block vows that he is going to smash one of these chauffeurs with a brick bat and let the Judge and jury decide whether or not he has the right to protect his home and try and prolong the life of his invalid wife. He is going to get a lot of warm backing when he does this. These disturbers of the peace should be haled into court and fined till they would sit up and take notice. HELL AND MARIA.

Explains Vote for Kiel.

To the Editor of the Post-Dispatch.

I F you will follow closely the stand taken by the Chamber of Commerce in the labor troubles that are coming up, you will find that the election of Mr. Kiel was through the efforts and votes of the independent voter, who refused to go for the candidates put up and endorsed by the Chamber of Commerce. Mr. Kiel may not be all that could be expected of a Mayor of St. Louis, but he is broad enough to realize that the laboring element is a necessary part of a city and is entitled to some consideration. I am not a union man and I have never belonged to a union, but I like to see fair play.

AN INDEPENDENT VOTER.

Protect Hospital Patients.

To the Editor of the Post-Dispatch.

W INDOWS could be barred at hospitals at a small cost and in that way save lives of patients who are crazed with pain. Only last week a young mother of four children lost her life. What are people to do for the safety of their loved ones? The family is not allowed to stay in the room, where, if at home, would not leave the bedside a minute. The same thing happened two weeks ago to a man at another hospital, where everything else for his comfort and safety was provided. I say bar the windows.

AN INTERESTED CITIZEN.

Need of Improvements.

To the Editor of the Post-Dispatch.

SOME years ago I mentioned the material need of improving Chouteau avenue from the municipal bridge to Vandeventer avenue, that being a wide thoroughfare, so convenient and necessary for traffic on the South Side. Think it is seriously, how greatly need it is for this improvement, especially since the said bridge has been open for business.

Certainly, many of the old, dilapidated buildings from the bridge to Vandeventer or Grand should be condemned and wrecked or improved up-to-date to be more presentable and vastly more profitable to their owners; and the surface of the important thoroughfare be made smooth surface to invite a more satisfactory and increased traffic for business and pleasure. Indeed, the owners of said property are standing in their own light in neglecting this public welfare in this business way.

Yes, and the two blocks of buildings between Chouteau and Hickory that were condemned and demolished for the purpose of making a park there. It was claimed; and the same on Seventh street at the municipal bridge entrance, when more houses were greatly needed instead of destroying them, and no parks yet at those places. Only places to cause "sore eyes" of people who feel due pride for the city's welfare. What do you think of such administration?

Now they talk of wrecking the large old municipal building between Chestnut and Market streets on the Eleventh street, but no mention is made as to what large, valuable space will be used for. And still the block on which the old Post Courts building formerly was so conspicuous, at Clark and Twelfth, one block from the city hall, remains another "eyesore" to those who think the city's welfare is being sadly neglected at the hands of the \$8000 Welfare Commissioner, while the Mayor apparently has his eyes shut, or evidently pays no attention to this vacant block, together with said costly four blocks provided for parks. But where are the parks?

TRES.

THE PROHIBITION MESS.

The worst phase of the prohibition mess in the county is the charge of official corruption and connivance in connection with the running of stills and bootlegging. Enforcement of the Volstead act is difficult under the best conditions, as the prohibition enforcement officers and other officers charged with its enforcement will testify. There is a general contempt for the law and an utter disregard for it on the part of large elements of the people, many of whom are otherwise law-abiding and are classed among the best citizens. The underground distiller and the bootlegger are encouraged and supported in their sordid and vicious business by a large element of well-to-do citizens who regard the law as an invasion of their personal rights and indefensible in principle, purpose and effect. While this cannot be condoned on any theory of good citizenship, the fundamental cause of this lawless attitude is the sumptuary law by which fanaticism attempts to control the conduct of citizens with regard to acts and customs innocent in themselves and to create by law crimes that have inherently no criminal quality.

It is a maxim of human reason and experience in law that creating law-made crimes of acts that are innocent in themselves fosters lawlessness and contempt for crime.

When, however, officials charged with the enforcement of law take advantage of this situation and sentiment to deal crookedly and corruptly with moonshiners and bootleggers, giving them protection from arrest and punishment, the worst phase of lawlessness under the prohibition rule arises.

Officials who are tempted by bribery to protect or connive at law-breaking in one respect will eventually wink at all law-breaking. Corruption becomes a riot in the blood and all law and order declines. All law becomes a mockery and the instruments of law become agents of crime.

We do not pretend to know who is right or who is wrong in the county; that can only be determined by an impartial and thorough investigation. We do say that the accusations should be threshed out completely and whoever is guilty of official corruption should be stripped of official power and punished. The menace of protected lawlessness, if it exists, must be removed.

We do say, however, that the fruits of the Volstead act are well exhibited in the county mess, the cover of which seems to have been lifted for public view by political feuds. These fruits are not confined to St. Louis County; they are widespread; they are disclosed to public view from time to time in every part of the country. They are the logical fruits of prohibitory fanaticism translated into law in violation of the principles of personal rights and liberty and of the sound principles and practices of law.

These fruits are general lawlessness, contempt for law, lying, hypocrisy and official corruption.

They form a cesspool in the body politic, the evils of

which far exceed the worst evils of the liquor trade, because they involve drinking and drunkenness with the other evils which attack the foundations of law and order.

An ordinance regulating the conditions under which aviation may be carried on, with Forest Park as a base, is as Director Cunliff points out, urgently needed. There should be no hesitation on the part of the Board of Aldermen to pass such an ordinance. Tuesday's serious accident, in which a passenger was dangerously injured in the fall of a plane manned by a 23-year-old pilot, vividly emphasizes the need.

If the park is to be used as the base of operation by a commercial enterprise—and this itself is a highly doubtful business—then certainly there should be some official test to which the pilots should be subjected before being permitted to take into their hands daily the lives and limbs of passengers. The public never understood, when the field was set apart for the use of the Government mail service, that it would also be used as part of the business equipment of the dollar-a-minute joyride pilots.

PARIS AVIATION.

An ordinance regulating the conditions under which aviation may be carried on, with Forest Park as a base, is as Director Cunliff points out, urgently needed. There should be no hesitation on the part of the Board of Aldermen to pass such an ordinance.

Tuesday's serious accident, in which a passenger was

dangerously injured in the fall of a plane manned by a 23-year-old pilot, vividly emphasizes the need.

If the park is to be used as the base of operation by a commercial enterprise—and this itself is a highly doubtful business—then certainly there should be some official test to which the pilots should be subjected before being permitted to take into their hands daily the lives and limbs of passengers. The public never understood, when the field was set apart for the use of the Government mail service, that it would also be used as part of the business equipment of the dollar-a-minute joyride pilots.

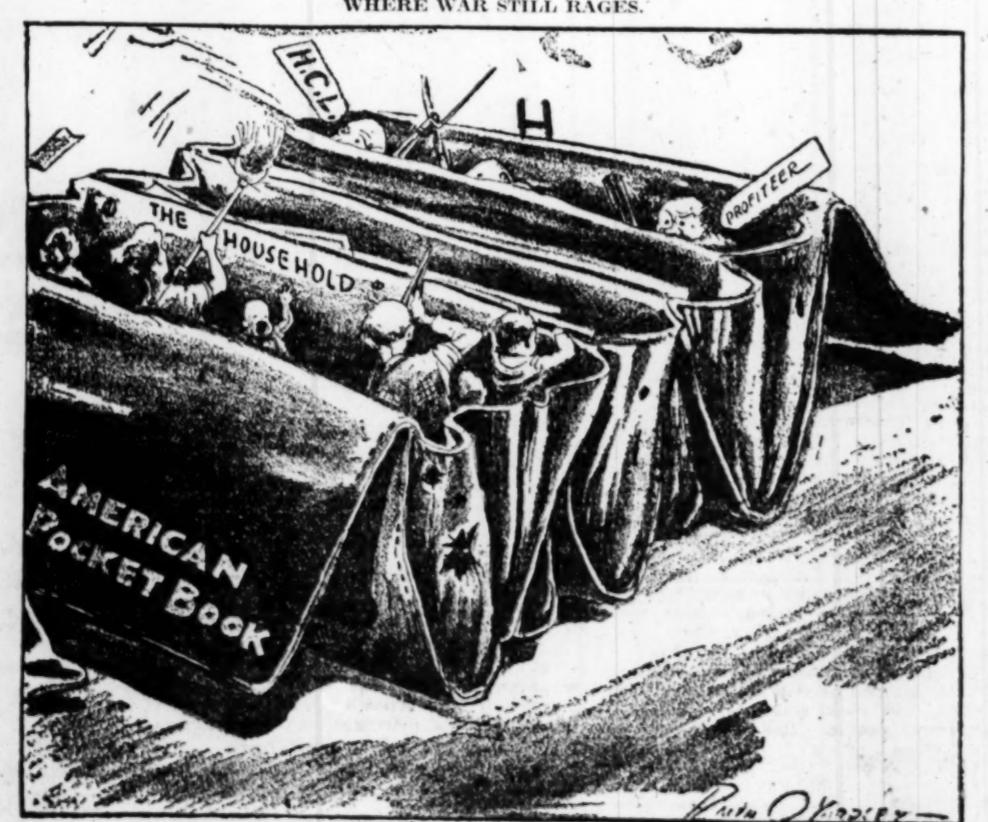

CHEER UP, SENATOR.

It is with exceeding solicitude that we note the passing of the proverbial good humor of the administration and its main props. Little is heard from Secretary Hughes, whose assignment, in showing how wrong was the previous administration, is the most arduous of them all. To the Secretary of State has been given probably the meanest piece of hack work in history. He it is who must rewrite the voluminous and complicated Versailles treaty, with instructions to make it just the same only different, and to cut out the only part to which he has given his formal personal indorsement. We would not blame Secretary Hughes for saying things under his breath and saying them with embellishments.

But the petulance latterly exhibited by Senator Penrose who, on those rare, virgin days of June a year ago, ran the Chicago convention over a long-distance telephone, is disturbing. "When Congress met," he says, "there were hopes of economy and of reducing Government expenditures, but I do not look now for any radical changes in the tax system."

There is only one small note of the Senator's old campaign ardor in what he has to say. This is his reference to the "scandalous" financial situation revealed in connection with Shipping Board affairs. Here for a moment appeared a chance of invoking again that blessed plague of "Wilsonism" under which the heterogeneous battalions of death fought, when the heterogeneous battalions of death fought,

WHERE WAR STILL RAGES.

—San Francisco Bulletin.

Maj. Hawes seems to be in fine midsummer form. He went around the election contest committee course yesterday and brought Bogy in four or five down.

The temperature at Bismarck, N. D., on yesterday was 100. Isn't the weather trying to stand on its head?

Senator Borah appears to be the only Senate obstructionist who cares about squaring himself with civilization.

THE MAGIC CITY.

O H magic city, resplendent, whose foun-

ation.

T is a golden cloud, whose turrets

Tiped of stars serene, rise proudly

To the misty heights. Unsunmed thy radiance

Sheds confiding beams through chaos,

Lifting the hand of man at his labor,

Creating of dull instants, fair moments

Which shine, Oh, magic city, standing

On the threshold of heaven. City of dreams

And dreaming—Man's Mecca.

PATIENCE WORTH,

completes satisfaction to all concerned.

Uncommon Sense

By JOHN BLAKE

"ALERT"

ON THE battlefield when the hum of the distant airplane was heard by the outposts, "Alert" was sounded. The antiaircraft guns were made ready. Soldiers prepared to get under cover.

The timely sounding of the call saved lives. There was never any disposition to neglect it.

From one end of a command to the other there was scurrying and preparation. And if this first came in time, the enemy flyer usually found it advisable to return to his own lines as speedily as possible.

"Alerts" are sounding about us all the time, but few of us take the trouble to heed them.

We go our ways in our own fashion, confident that nothing can harm us.

NEGLECT of health, neglect of business, overindulgence, overconfidence all are enemies which, while they may not be as imminently dangerous as an enemy airplane, still will "get us" if we do not prepare for resistance.

The old sound "Alerts" for the young and the young put them down as of no consequence.

Preachers, educators, philosophers, students of life, constantly sound their "alerts" in spoken and printed words.

We listen and smile, and do the things we have been doing.

But there are those of us who know what "Alert" means, and those are the ones who are going to be ready when the enemies are sighted.

They are going to protect their health from the inside, and they are going to protect their minds against the hounds of the hundreds of destructive habits that will ruin in a little time if no defense is found against them.

IFE is and has to be a continual battle, a struggle between the good and the evil in a man or woman.

The good, constantly sound the "Alert" and the evil as constantly sound their inaction.

Listen to the "Alerts" if you expect to be anything more than you are today—even as much as you are today. Listen to them and heed them, and you will live in far less danger of the common enemy.

SAVORY BEEF

2 pounds beef cut in size for serving (use plate, shank, dump or round).

3 large onions sliced.

3 tablespoons lard.

1 teaspoon flour.

1 teaspoon salt.

44 teaspoon black pepper.

44 teaspoon ground cloves and thyme or summer savory.

1 pint brown stock or boiling water and meat extract.

2 tablespoons vinegar.

144 teaspoon cayenne.

Brown onions slowly in lard. In

crease the heat. Add meat and brown. Mix the flour, pepper and other seasonings. Sprinkle this mix-

ture over the meat. Add the stock, vinegar and catsup. Cover closely.

Simmer until meat is tender, allow-

ing two hours for shank or plate and 14 hours for rump or round.

FRUIT PUDDING

B EAT to a cream half a cup of butter with three-quarters of a cup of powdered sugar and when creamed add one at a time the yolks of three eggs beat well, and add the seeded rind of half a lemon, one cup of chopped citrus and slowly add one cup of sifted flour.

Add the stiffly beaten whites of the three eggs. Butter a pudding mould and sprinkle with finely chopped blanched almonds. Pour in the pudding mixture and boil three hours. Serve with fruit sauce.

cently ruled that a woman has a

right to hold political office in that

What to Do Until the Doctor Comes

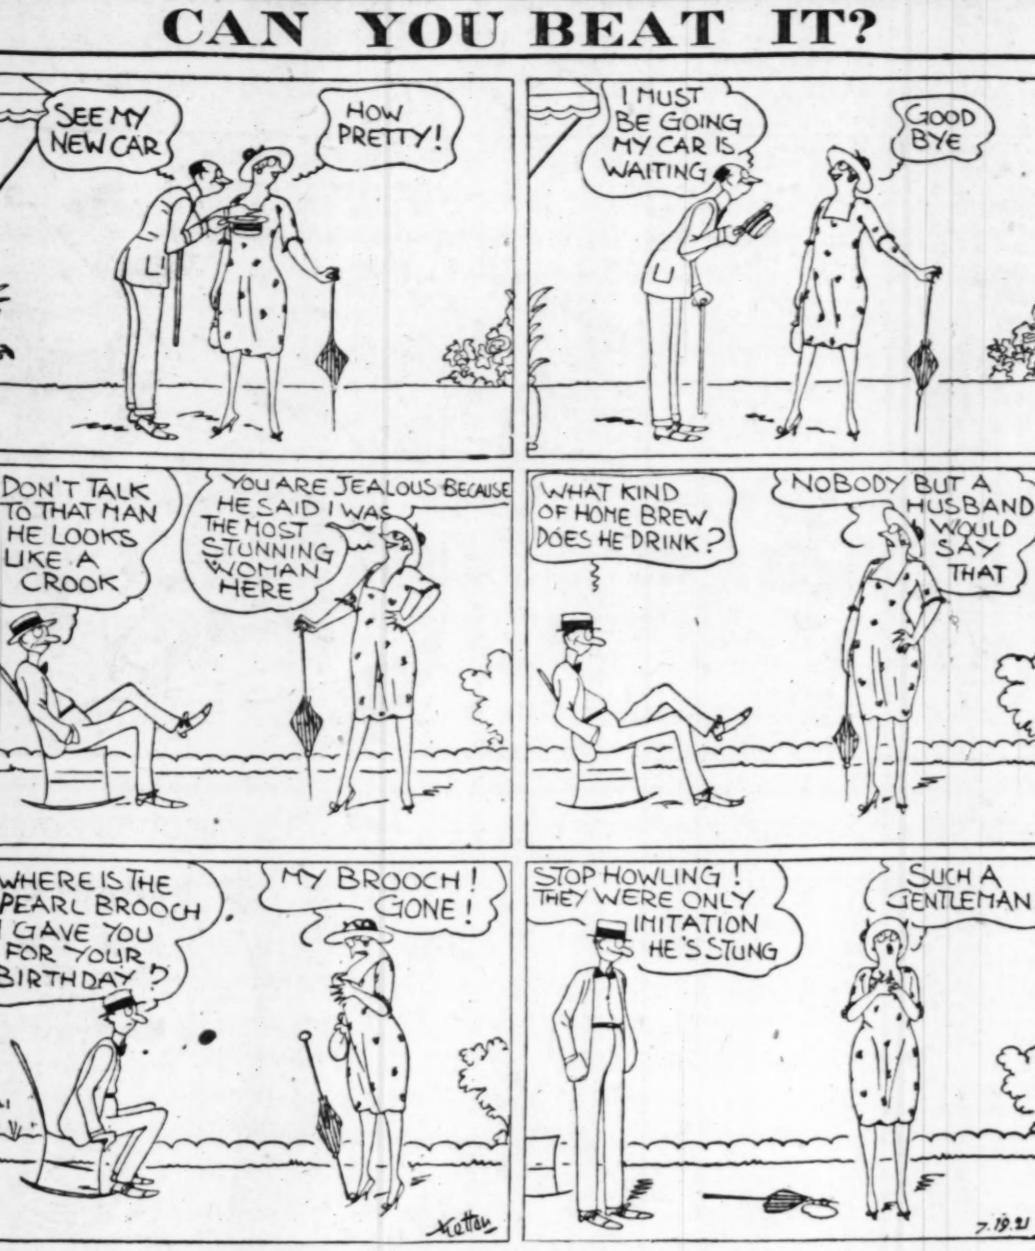

By Charlotte C. West, M. D.

Heat Prostration.

IT is wise to take every precaution during the heat of summer to guard against heat exhaustion. Happily, "daylight saving" continues in our State, but, even so, it would be an excellent thing to begin the cool period of the early dawn half a day's work as easily as can be accomplished without exposing one's self to the intense heat of the day. Earlier and later in the day there is always some shade if one must work in the open. The danger is lessened when the skin acts freely. Therefore, one should take frequent baths in the course of every 24 hours. The light clothing is weight and color about worn.

Children suffer intensely from the heat. Care must be taken to keep them in the shade and just enough body covering to clothe them naked. Persons addicted to the use of alcohol run an especial risk, as do heavy eaters. Rooms that cannot be well ventilated should be artificially cooled and cooled with fans and blocks of ice.

One of ordinary heat prostration requires little treatment beyond removing the patient into a cool, well-ventilated room.

MAXIMS
—OF A—
Modern MaidBy
Marguerite Mooers Marshall

WHILE the present styles of hairdressing persist, it is simply impossible for the most ardent lover to whisper anything into her little, pink, shell-like ear.

Not even Samson dreaded a haircut worse than the fifteen-year-old boy who is trying to train his Pomeranian locks into the greased-cat pompadour popular hereabouts.

This is the time of year when the tired business man grows MORE tired trying to think of an acceptable week-end explanation for not using the full fifty words in the night letters he's been writing.

When a husband is awkward about fastening her evening gown the silly bride fusses; and when he is an adept at the task the wise bride—wonders!

Even the hairdresser may have the silver lining, for, with so much time on his hands, the business man can make a card catalogue of all the women in his office who bob their hair, who use rouge, who roll their—oh, well, he seems to be interested in ALL that sort of thing!

It may be legal to go through a husband's pockets. But surely it's a much more tactful hold-up to say: "Dear, you are so strong and clever and gentle, and I saw the sweet summer face to-day, and it costs 'ever so little!'"

Anybody who has ever watched a man tenderly transferring from one set of pockets to another their hound and chiefly useless contents knows that Darwin was all wrong and that the human race is NOT descended from monkeys, but from squirrels.

Every man believes in community of property if the property happens to be his wife's hand-mirror, her talcum powder, her nail file or her safety pins.

Now that the summer girl wears a soft hat, as well as furs, she only needs arctics and a mackinaw to be dressed in the height of suitability.

SECOND INSTALLMENT.

"Me?" said the man, answering the knock with a cheerful smile that soon had everyone—Tom Cross, and I've come direct from America, by way of London and Dublin." And he put the box on the table and wrung the drops of rain from off his face and hands.

"Well, whatever you may be, come up to the fire and dry yourself, then," said Keirle O'Dare. "But tell me at once what you will be wanting with me."

"I have heard that some of them are different."

"You've heard? A lie!" cried the old man.

"Maybe not a lie," said Tom Cross, same as he'd spoken before. "Only the day I left London we got the news about Andre Delmour."

"And what of this Andre Delmour?" old Keirle cried, full of fury at being contradicted. "Who is he?"

"Who is he?" exclaimed Tom Cross. "Oh, my dear sir, a man that owned a phonograph would know no better than that question. Andre Delmour," he said, and a queer way he said it, something like speaking a piece you've learned from a book, "is one of the greatest violinists of modern times. He first attracted attention in the year 1908, when he played at a concert in London, and in the middle of his composition called 'A Song of Home.' A great impresario happened to be in the audience, and in an ecstasy of delight he summoned the young violinist and engaged him on the spot.

Tom Cross sat there a minute, studying the old man, and then he spoke more calmly, as if it was little account to him one way or the other.

"I have heard that some of them are different."

"You've heard? A lie!" cried the old man.

"Maybe not a lie," said Tom Cross, same as he'd spoken before. "Only the day I left London we got the news about Andre Delmour."

"And what of this Andre Delmour?" old Keirle cried, full of fury at being contradicted. "Who is he?"

"Who is he?" exclaimed Tom Cross. "Oh, my dear sir, a man that owned a phonograph would know no better than that question. Andre Delmour," he said, and a queer way he said it, something like speaking a piece you've learned from a book, "is one of the greatest violinists of modern times. He first attracted attention in the year 1908, when he played at a concert in London, and in the middle of his composition called 'A Song of Home.' A great impresario happened to be in the audience, and in an ecstasy of delight he summoned the young violinist and engaged him on the spot.

Tom Cross sat there a minute, studying the old man, and then he spoke more calmly, as if it was little account to him one way or the other.

MORE TRUTH THAN POETRY
By James J. Montague.

NO DANGER.
A Western Board of Trade has passed a resolution against the employment of pretty stenographers.

Dear Plym—though the Board of Trade has voted that it is going to get you, because your lovely face has made too big a hit—don't let that fret you. It's true you girls with limp lumps and melting looks that break no curving have been denounced as Office Vamps—much less efficient than disturbing. But though you cause the handsome clerk to shirk his job, and to the stranger who happens in, you give The Work, your place is not in any danger.

A Board of Trade is many men. From every thought of evil fleeing; Your boss is something else again. He's just a single human being. A Board of Trade has moral sense; Bound by a strong commercial tether, Its members are a bunch of gents. Most proper (when they're all together). And though they have decided that You must be banished from the city, Paste this reflection in your hat: Your boss, himself, prefers you pretty.

You doled yourself to get the job; Your charms you marshaled—which were legion, The boss beheld, and felt a throb. Arising in his cardiac region. A Board of Trade might have foreseen The help would too much have admired you.—The while you tapped on your machine. Your boss, however, promptly hired you. We've been around most every place, Pursuing this and that vociferous, And never knew a pretty face To cost a girl her situation!

HOPELESS.

The sons of the German Emperor are not wanted in the movies. They won't work, and they can't play.

EMBARRASSING.

Now we have got peace, we don't seem to know what to do with it.
